The Big Sort Deck

On the following pages are forty four images, one for each of the trends in *The Next Big Things*.

**Instructions:**
1. Print out the following pages on heavy cardstock
2. Cut each page in half, to create a “deck” of trends
3. If your community is facing additional trends, find images for those trends, print them, and include them in your deck
4. Work with other stakeholders to complete “The Big Sort,” an activity to help you prioritize the trends for your community.

Directions for “The Big Sort” are included in the premium version of *The Next Big Things*.
